PROFESSIONAL EXPERIENCE

MESSINA GROUP CONSULTING

CHICAGO, IL

Analytics Associate Consultant

May 2025 - Present

- Led end-to-end data migration and analytics enablement for a PE-sponsored healthcare portfolio company preparing for go-to-market, owning the transition from fragmented operational and financial systems into Microsoft Fabric and Snowflake for scalable reporting.
- Developed automated weekly executive AI-enabled recommendations, translating operational, clinical, and financial data into actionable insights to support capacity planning, GTM strategy, and executive decision-making
- Supported a PE-backed lawn care services platform post-acquisition, coordinating Power BI dashboard development, KPI standardization, and analytics infrastructure design to enable roll-up reporting and performance monitoring across acquired companies

PING

PHOENIX, AZ

Data Science Intern

May 2024 - August 2024

- Automated groove conformance testing by developing a Flask web app using Pandas and BeautifulSoup to extract and process CNC-generated HTML test reports, integrating results into a Power BI dashboard. Presented findings to senior engineering leadership
- Built a Microsoft Power Apps solution with Power Automate and Dataverse, seamlessly integrating launch success metrics with project databases to automate and streamline the quarterly engineering performance evaluation process across multiple teams
- Developed an interactive Power BI dashboard for project scheduling using DAX, Power Query (M), and SQL Server, ensuring automated real-time updates and improving data-driven resource planning and decision-making

RXO

Ann Arbor, MI

Brokerage Analytics Intern

May 2023 - August 2023

- Utilized SQL databases to extract route-specific delay data and created an enhanced ETA tool integrated with a weather API, Tomorrow.io, that was implemented into a web page designed in Angular. The application was a finalist at the 2023 RXO Hackathon
- Optimized automated spotbot bidding bots by analyzing data from Power BI and presented my findings to Senior Analysts and Managers. My analysis had an estimated increase of \$11,250 weekly gross margin and 16.34% increase in bid scan conversion
- Restructured Internal Lane Agreements(ILAs) by comparing carrier pricing to market metrics. The new ILAs ultimately led to \$746,000 projected savings for Q3 and Q4 of 2023 and were presented at the RXO Global Headquarters in Charlotte, NC

AMERICAN RED CROSS

Washington D.C.

Fundraising and Marketing Intern

October 2022 - December 2022

- Devised a photo organization tool through Microsoft OneDrive and Excel that allowed efficient access to photos from Hurricane Ian. The PowerPoint creation time improved by an average of 7 minutes for marketing team members
- Managed comprehensive correspondence for Gail McGovern, CEO of the American Red Cross, addressing major donors, including Aldi and the J.W. Family Charitable Trust, ensuring effective communication and relationship-building
- Designed interactive donor-facing marketing materials, including impact summaries and campaign visuals, to support year-end giving initiatives and enhance donor engagement

EDUCATION

UNIVERSITY OF MICHIGAN

Ann Arbor, MI

Bachelor of Science, Data Science | GPA: 3.6/4.00

Expected Graduation: May 2025

- Relevant Coursework: Data Structures and Algorithms, Machine Learning, Database Management Systems, Game Theory
- Grader for EECS 183 Elementary Programming (F23, W24, F24, W25), Planet Blue Ambassador(W2023), IM Flag Football

PROJECTS

EQUITY RESEARCH AND VALUATION MODELS

SEPTEMBER 2025 - PRESENT

- Built bottom-up discounted cash flow (DCF) valuation models for public equities using fundamental research from SEC filings and earnings materials to assess revenue drivers, capital structure, and valuation sensitivities

FAKE NEWS CLASSIFIER

OCTOBER 2024 - DECEMBER 2024

- Developed a fake news classifier using machine learning techniques, employing feature engineering and model tuning to accurately distinguish between legitimate and false news articles. Github Repository: <https://github.com/karsind/FakeNewsClassifier>

ADDITIONAL INFORMATION

- **Skills:** Python, Machine Learning, Apache Spark, SQL, MS Fabric, Snowflake, Data Governance, and Power BI
- **Interests:** R&B music, running, meditation, Beli food recommendations, geoguesser
